NO NEWS FROM REVOLT ZONE

Because Chinese Government Has Cut
Off the Telegraph Wire Service to
Hankow, Preventing Rebels
From Sending Word.

Peking, Oct. 16.—The members of the national assembly drew up a series of resolutions on the revolutionary situation, addressed to the throne, to-day. The resolutions demand in the interest of peace that the provincial assembly of Sze-Chuen be permitted to assemble immediately; that the president and vice president of that body be released from prison to participate in the sessions. The resolutions also call for the dismissal of Sheng Hsuan-Huai, the imperial minister of the post and communications. Sheng is the leading advocate of the anti-provincial policy, and is regarded as largely responsible for the present uprising.

Wire Communication Not Easy.

Peking, Oct. 16.—The Chinese government has placed severe restrictions on the telegraph lines, evidently for the purpose of preventing communication between the rebels. On this account Hankow, where the revolution is at its height, is cut off. It is not considered possible that the wires have been cut throughout the six provinces. Until lately the revolutionaries, having free use of the wires, received and disseminated information concerning the progress of their plans in all provinces.

The government refuses to reveal the number or the destination of the troops which are being sent southward. Beginning to-day, only a single first class train will be run daily between Peking and Tientsin, about seventy miles to the southeast of the capital. This is due to the heavy troop traffic and for the purpose of preventing any great number of rebels from coming into Peking. Passengers and freight traffic has been entirely suspended between Peking and Hankow.

So far the government has refused to permit correspondents to accompany the army. Both sides are anxious to favor foreigners and it is believed that the government will reconsider this refusal should the imperialists meet with initial success.

REBELS WELL ORGANIZED.

Leaders Reported to Have Their Forces
Well in Hand.

London, Oct. 16.—A Shanghai dispatch to a London news agency says that Yuan Shi Kai, who had been recalled by the government and appointed viceroy of Hu-peh and Hunan province, has declined to accept the appointment unless it is accompanied by imperial guarantees of immediate effective reforms and the enforcement of constitutional measures, such as demanded by the leaders of the present agitation.

The insurgents disclaim the character of revolutionaries. They have styled themselves "the constitutional party," contending that the constitution granted by the late emperor has been violated under the existing regime.

The death of coin reported from Hankow is due to the rich residents having handed over their wealth to the insurgents. The insurgents have also commandeered all the specie in the banks, for which they have given receipts.

Another dispatch received here from Hankow purporting to bear the date Sunday, 11 a. m., says:

"Perfect order is still being maintained here, and the foreign concessions are respected by the rebels who occupy the city."

TURKISH INFANTRY

ATTACKS ITALIANS

Baptism of Fire for the Latter After
Fifteen Years of Peace, and They
Responded With Vigorous
Resistance.

Rome, Oct. 16, via the frontier.—News of the attack by the Turkish infantry upon the Italian outposts at Tripoli Saturday has been received with great interest here because it was the Italian soldiers' baptism of fire after fifteen years of peace. Official advices say that the young soldiers behaved like veterans and that they were with difficulty prevented from pursuing the enemy. The officers, however, feared a trap in the darkness and would permit no pursuit.

Wounded Turks, who are now being cared for in the Italian hospital pens, say that conditions under Mullah Pascha are the cause of much dissatisfaction. The supplies are short and there are about 200 wounded soldiers in the Turkish encampment.

It is expected that the last twenty transports with the expeditionary force aboard will reach Tripoli late to-night. This expedition includes 15,000 men, members of the general staff, 200 carabinieri to reinforce the gendarmerie, seven aeroplanes, chaplains, automobile vans, constructed for work in the desert, and a large sum of money. A hospital ship is with the transports.

Industrial centers are beginning to feel the Turkish boycott against Italian products. Grain merchants, cotton and

silk manufacturers and manufacturers of wax matches are particularly affected. The boycott is also causing the suspension of considerable work and labor troubles are feared.

A dispatch from Malta says that the American yacht Utowana, with the American archaeological mission aboard, will proceed soon to Benghazi, where, notwithstanding the Italian occupation, the work of excavating will be resumed. The dispatch adds that Commander Benton C. Decker of the United States cruiser Chester, gave a reception aboard his ship to the Malta authorities and consuls, at which the American officers expressed regret that the Italians had been unable to give the murderers of Herbert F. Decon, a member of the archaeological mission, near Benghazi a deserved lesson.

SEARCH IS ABANDONED.

There Are Still Five Persons Missing at
Austin, Pa.

Austin, Pa., Oct. 16.—Further search for bodies in the ruins of the flood here two weeks ago was abandoned yesterday. The total number of bodies recovered is 72. Five persons are still missing.

Last night the state health officers returned to Harrisburg and most of the state constabulary left during the day. One state engineer remains to look after the water supply. The work of rehabilitating Austin is now entirely in the hands of the local committee.

The town council has ordered owners to salvage all materials they desire from the ruins within 10 days, after which the council will make such disposition as it deems fit. This step is said to be actuated by the offer of the Long Island Wood company of New York City to take over the wood and timber in the ruins.

GAS KILLS FIVE MEN.

Found in Hotel Room With Jet Wide
Open.

Toronto, Ont., Oct. 16.—Five men were killed by gas in the Occidental hotel on Dundas street last night. The men had come in after midnight and four of them had not even removed their clothing. When they were found, gas was escaping from the jet and from a small heater as well. The victims are: Samuel Reed, aged 42; George H. Knowles, 45; George Williams, 45; William Downs, 41, and William Allen, 60.

The first four were sleeping in one room, where the open gas jet was found, and Allen was in an adjacent room. He was unharmed and in bed and beside him was a coal oil lamp, which was still burning. The men, who were all laborers, were paid off Friday.

WOULDN'T HELP AUTHORITIES

By Trying to Identify Negroes Who
Held Up Winoski Store.

Burlington, Oct. 16.—No clue has been found to the whereabouts, or to the identity, of the two negroes supposed to be soldiers of the 10th cavalry, who held up the store of Henry Desautel and Joseph Gignas last Friday night. The refusal of Desautel and Gignas to visit the various Winoski resorts, with the armed guard from the post, it is said, greatly handicapped the guards and village officials in finding a clue. It left the guard without anything to work on, and it returned to the post shortly before midnight. Both Desautel and Gignas said that they could identify the men, but they refused to make any effort to do so. The post guard that night visited a few of the Winoski resorts, but found everything being conducted in the usual way.

Opinion in Winoski differs as to whether the robbers were soldiers or followers of the cavalry. The fact that the negroes wore both army overcoats and caps leads the police to believe they were soldiers. The affair has made other local dealers more careful in keeping large amounts of currency in their stores.

SPECTACULAR FIRE.

Caused \$10,000 Damage at Franklin,
N. H., Yesterday Morning.

Franklin, N. H., Oct. 16.—One of the most spectacular fires that has ever visited Franklin did \$10,000 damage to the Glines & Stevens company's woodworking plant, corner of Elkins and Winnipisaukee streets, early Sunday morning. The blaze was discovered by young men returning from a party.

The firemen worked for six hours before the "all out" was sounded yesterday forenoon. The portion of the plant where finished hard wood was stored was destroyed with its contents, including nearly 200,000 feet of oak, cypress, North Carolina and Canadian pine and white wood. The boiler house adjoining was also ruined.

The fire started in a corner of the storehouse, and it is thought it was set. The flames spread to a two-story house owned by Mrs. Carrie Martin and to Joseph Pinard's barn, both of which were badly damaged.

The Glines & Stevens Co.'s loss is covered by insurance, while Mrs. Martin carried \$1,000 insurance. Her house was occupied by George Shepard and Charles Dockham, both of whom lost household goods.

A lockout is expected, however, as the shoe manufacturers, as a whole, have decided they will not grant the cutters' request.

SUGAR DEALERS' COMBINATION.

Bill to Remove Tariff Duties May Be
Introduced in Congress.

New York, Oct. 16.—Congressman William Sulzer, chairman of the subcommittee investigating the accounts of the various large sugar refining companies in the United States, announced to-day that the committee would probably introduce in Congress, when it convenes, a bill to remove all tariff duties on the importation of raw sugar into the United States. He said the recent sensational rise in the price of sugar was due to the combination of foreign raw sugar dealers, who control the price of sugar through the assistance of the American tariff.

At Guardia and Santa Venerina several houses collapsed and two persons were killed. At Maccia a church was demolished. Considerable damage was done also at Roudinella.

Late reports from the district affected by the earthquake indicate that many persons were killed, probably by the collapse of buildings. Troops were dispatched to the work of rescue and succeeded in removing twenty bodies. Eighty persons are known to have been injured.

KEPT HER PROMISE
AND KILLED HERSELFMrs. Genie Piggram of Rutland Drank
Nearly Two Ounces of Laudanum
Yesterday.

Rutland, Oct. 16.—True to her declaration to friends that she intended to take a dose of poison and end it all, Mrs. Genie Piggram of No. 256 South Main street was found in a serious condition Sunday morning at 8 o'clock and although Dr. S. W. Hammond worked over her for several hours she died at noon. She had taken nearly all the contents of a two ounce bottle of laudanum, the bottle being found later by Health Officer C. F. Ball with only a few drops of the liquid still in the bottle.

Mrs. Piggram was 24 years old and had lived with her mother in this city for about two years. She is survived by her husband, who lives in Cambridge, Mass., but with whom she has not lived for some time, a son, Lloyd, six years old, her father, George W. Madison, her mother, Mrs. Lavalley, a sister, Miss Madge Madison, and a half sister, who is but six months old. The funeral will be held Tuesday.

There could be little information learned at the house, all the relatives refusing to make any statements. It is known, however, that she did not leave any note that would lead to a motive for the deed.

BY HANGING IN CELLJ. L. Rhodes, Prisoner in Franklin Coun-
ty Jail, Gave Officers Much Un-
easiness.

St. Albans, Oct. 16.—J. L. Rhodes, a Central Vermont fireman, who was recently injured by being knocked from an engine at Montpelier Junction, and who was arrested last night on the charge of intoxication, tried the officers to commit suicide in the county jail last night by hanging. They report that he tore his shirt into strips and attached the strips to the bars of the cell, intending to kill himself. They watched him during the remainder of the night.

YOUNG WOMAN A SUICIDE.

Alice W. Linnell of Hyannisport, Mass.,
a Student in Music.

Boston, Oct. 16.—Miss Alice W. Linnell of Hyannisport, a student at the New England Conservatory of Music, killed herself Saturday night at the Boston Young Women's Christian association, 68 Warren street, where she had roomed for two years. Her death occurred within 24 hours of a newspaper announcement of the engagement of Miss Linnell to E. E. Richeson, pastor of the Immanuel Baptist church of Cambridge, to a young woman of Brookline. The clergyman and Miss Linnell formerly were engaged to be married.

Miss Linnell was a daughter of Mr. and Mrs. Edgar Linnell. She was 20 years old, was a favorite with many acquaintances in Boston, Hyannisport and many other towns along the elbow of Cape Cod. She was attractive and her sweet voice often was heard in her home church and at entertainments in Hyannisport. Her engagement to the clergyman and his sudden termination were the subjects of much attention there.

Few at the Boston Young Women's Christian association knew of her disappointment. The people of Hyannisport knew when the engagement was broken off last winter, and they were saddened last summer when the Rev. Mr. Richeson spent much of his time in the company of Miss Linnell again. It was supposed that a reconciliation had been effected, but that belief was destroyed by the announcement of the minister's engagement to Miss Violet Edmonds, daughter of Mr. and Mrs. Moses Grant Edmonds of Chestnut Hill. The announcement attracted unusual attention because it was made simultaneously with that of the engagement of Miss Edmonds' sister, Rose, to Rev. George H. Holt, pastor of the Central Baptist church of Jamestown, R. I.

MOTORMAN KILLED
IN RUTLAND WRECKCharles A. Hewett Drove Car Against
a Rutland Railroad Freight Train
Late Saturday Night.

Rutland, Oct. 16.—Motorman Charles A. Hewett was instantly killed and Conductor Fred Slack and six passengers narrowly escaped a similar fate late Saturday night when a trolley car in charge of this crew crashed into a Rutland railroad freight train on the Park street crossing. The fact that the car was equipped with a detachable vestibule is probably responsible for the only death. The part of the electric wire torn from the car and with Motorman Hewett, was dragged for more than 200 yards up the tracks. His lifeless body was found by a searching party soon after the accident.

The car in charge of Hewett and Slack was running on the south belt. The car was supposed to stop before the crossing was reached, to allow the conductor to see if the track was clear. This it failed to do, it is said, and the trolley car smashed into the middle of the freight train, which must have been moving at a rapid pace. Conductor Slack said last night that on two earlier trips Hewett allowed his car to run directly onto the crossing before bringing it to a stop. Hewett was 19 years old and had been in the employ of the Rutland Railway Light & Power company for only two months. He is survived by his parents and a younger brother. The funeral will be held on Tuesday afternoon at 1 o'clock.

FELL OFF CAR
NEAR WHEELSClose Call For Emilio Gomez on
North Main Street

NO ONE KNOWS THE CAUSE

His Groans Were Heard Last Night by
Passersby and He Was Carried
Home, Where a Physician
Dressed His Wounds.

Emilio Gomez, a stonecutter employed in Montpelier, narrowly escaped death while alighting from a south bound street car near North Main street in this city last night shortly after 8 o'clock. The accident happened within a few feet of the watering fountain at the corner of North Main and North Main streets. Gomez was returning from Montpelier, where he had passed the day with friends. No one can be found who witnessed the accident, and as the man's condition will not allow him to give a lucid explanation of his experience, it is not definitely known in what manner he sustained a serious bruise over the right temple and a deep gash just above the right eye.

It is believed that Gomez lost his balance in stepping from the car and was thrown to the ground dangerously near the track. From the nature of the wounds, it is likely that he was struck by the base of the car. Passersby, later, heard the man groaning and hastened to his assistance. Inquiry revealed the fact that he lived on North Main street not far away. At the home of L. Bena, 138 North Main street, where Gomez had boarded for some time, a physician dressed the wounded man's head and face. The man complains of pain in the lower limbs and it is not unlikely that further injuries may be revealed. The physician in attendance says that Gomez will recover. He is twenty-six years old and unmarried.

TURLEY CASE RESUMED
IN COUNTY COURTIt Was Taken Up Where Left Off Last
Saturday When Court Adjourned
For the Week.

On the reopening of Washington county court this afternoon, the trial of John Turley, charged with murdering John McAuley at Westerville last July, was resumed, the prosecution continuing the presentation of testimony, which was interrupted by the adjournment Saturday noon. Deputy Sheriff H. C. Lawson was the last witness heard Saturday, the witness testifying to taking McAuley's clothing and placing it in storage at the county jail, only to find Saturday that mice had made away with portions. The clothing with holes eaten was shown to the jury.

The first witness on the stand this afternoon was Dr. B. H. Stone of the state laboratory at Burlington, who performed the autopsy on the body of McAuley. Dr. Stone testified as to those findings to-day.

GRANITE FROM ORANGE.

Enterprising Quarrier Brings in Several
Samples to Exhibit.

Phillibert Fournier drove into the city to-day with four sizeable blocks of granite which he recently channeled from a quarry newly opened on his farm at Cutler corners. The stone was taken from the surface of a deposit which Mr. Fournier has known to exist on his farm for some time. Ten years ago considerable interest was created over the story that granite of superior quality had been discovered at Cutler corners. It seems that report met with little credence and was soon forgotten.

Soon after Mr. Fournier acquired the property, he became interested in the prospective development of a quarry. Last August a part of the quarry tract was uncovered and some excellent stone was found in the first layer of stone. The result of the find moved Mr. Fournier to procure a 30-foot derrick, which is now in working operation. The owner of the land is a stone cutter by trade and the knowledge gained in the shed has been of much value in making plans to realize from the deposit. At the present time he has three men quarrying stone and expects to increase this number in a short time.

In appearance the newly found stone compares favorably with the best medium stock found in the Graniteville section. Mr. Fournier has put it to several tests and finds that it takes an excellent polish. He believes that inexhaustible deposits await development in the vicinity of where his operations are under way.

Mrs. Odile Gilbert of Granite-
ville, Victim of an AccidentEarly This Morning on East
Montpelier Road, Just Out-
side the City.ONE OTHER OCCUPANT
HAD ARM SPRAINEDParty Were Returning From Long
Tedious Trip to Sherbrooke,P. Q., When Machine Shot
Off the Road at Sharp Curve.

An automobile driven by Odile Gilbert of Graniteville and carrying, also, Mrs. Gilbert and Mr. and Mrs. Charles Gilbert, went off a low bank near the Boutwell schoolhouse on the East Montpelier road, turned turtle and crushed Mrs. Odile Gilbert to death early this morning. Aside from a sprain to Charles Gilbert's arm, the other three occupants of the car were not injured.

The accident happened a few minutes before two o'clock, the party being on the way to their home in Graniteville after a long and tiresome trip to Sherbrooke, P. Q., where they had been to visit Mr. and Mrs. Odile Gilbertson's son, who is attending college there. They started from Graniteville at three o'clock yesterday morning in Mr. Gilbert's Cadillac machine and, arriving at Sherbrooke in due season, spent the day there, leaving for home early last evening. They had only a few miles further to go when the accident happened.

Auto Driver May Have Drowned.

In trying to account for the accident, Mr. Gilbert says he must have become drowsy because of the strain of driving the car so many miles late into the night and that he probably closed his eyes momentarily. It was just at the sharp turn in the road, after the automobile had made the ascent of the Lawson hill, where there is a bank of from ten to twelve feet in height. The automobile shot off the road and over this bank, landing in the field below, bottom side up. The three uninjured members of the party fell clear of the rolling machine, but Mrs. O. Gilbert was caught and fatally crushed.

While some remained with the injured woman, another member of the party walked back to the residence of Mrs. Eva Lawson, quarter of a mile away, and telephoned to this city for physicians and an ambulance. Hooker's ambulance was sent to the scene of the accident, which is a mile and a half out of this city, and brought Mrs. Gilbert to the City hospital, where she lingered until 7:25 o'clock. She sustained a fractured pelvis and internal injuries. Later this forenoon, the body was taken to the undertaking rooms of B. W. Hooker & Co.

Her husband came to this city in the ambulance with her
